

Medical Diagnosis Center Service Portal

Customer Journey Map - Patient Experience

Team ID: ServiceNow

JOURNEY Patient experience	ENTICE Discover the service	ENTER Start a booking	ENGAGE Complete the request	EXIT Complete the diagnostic journey	EXTEND After the service
STEPS	Patient opens the portal and explores services	Selects diagnostic test, date and time slot	Enters patient details, confirms request and payment	Attends appointment; sample collection / report moves through status	Views/downloads report; tracks history and future diagnostic needs
INTERACTIONS	Portal home page Test information Patient self-service	Test catalog Available slots Booking form	Patient + portal Payment confirmation Appointment record	Reception / lab staff Sample or scan process Status notifications	Portal report page Email notification Patient profile / history
GOALS & MOTIVATIONS	Help me understand what services are available	Help me find the right test and convenient slot	Help me complete booking without errors or delays	Help me complete the test and know what happens next	Help me access my result and keep my records organized
POSITIVE MOMENTS	Easy-to-understand services Centralized portal access	Available slots are visible Booking is straightforward	Immediate confirmation Clear appointment details	Status can be tracked Automated notifications	Digital report access Less need for follow-up visits
NEGATIVE MOMENTS	Unsure which test to choose Too much information	Preferred slot may be unavailable Scheduling uncertainty	Data entry can be frustrating Payment / validation issues	Waiting for report completion Uncertainty during processing	Difficulty finding old reports Need for repeated support queries
AREAS OF OPPORTUNITY	Provide clear test categories and concise service information	Show real-time availability and prevent duplicate bookings	Use mandatory-field validation and clear payment feedback	Send timely status alerts and make report progress visible	Improve report search/history and enable easier repeat booking

Overall insight: Patients value a centralized ServiceNow journey that makes booking, appointment tracking, notifications, payments, and report access simple and transparent.
